[Read Customer Reviews](#)

SUPER LIGHTWEIGHT DESIGN: Amazfit Bip U Pro only weigh about 31 grams. An ultra-light design you can barely feel when striving for peak performance.

LONG 9-DAY BATTERY LIFE: When fully-charged, you can relax and enjoy more than a full week of travel or work without worrying about chargers.

MORE HEALTH TRACKING METRICS: The Amazfit Bip U Pro fitness smartwatch precise optical monitoring allows you to accurately track heart rate, blood oxygen levels, stress levels, breathing, quality of sleep, and sleeping patterns.

SMART NOTIFICATIONS: Get an intelligent little pal to remind you of the incoming calls, text messages, apps, and calendars, alarm clock, weather forecast, and smart phone music and camera control.

BUILT-IN GPS: The Amazfit Bip U Pro is equipped with Built-in GPS and GLONASS to track daily step count, distance traveled, and calories burned.

Blood-Oxygen Level Measurement
When feeling unwell, under mental stress, or engaged in intensive workouts such as marathons and gym sessions, you can immediately measure your blood-oxygen saturation and understand your physical state.

60+ Sports Modes

The Amazfit Bip U Pro has 60+ exercise modes. These are Outdoor running, Treadmill, Walking, Outdoor cycling, Indoor cycling, Yoga, Cricket, Baseball, Basketball, Table tennis, Badminton, Free training, Fishing, Pool swimming, etc

5 ATM Water-resistance

Water-resistant up to 50 meters, you can wear the Bip U for swimming and it will track your movements and record your achievements even under water.

24/7 Heart Rate Monitoring

With its Huami-proprietary BioTracker PPG biological optical sensor, Bip U can maintain continuous 24-hour heart rate monitoring and provide elevated heart rate warnings.

Sleep Quality Monitoring

Accurately monitor your sleep stages, including those of deep sleep, light sleep, REM, awake time, and afternoon naps, and interpret the characteristics to provide you sleep quality score and insight.

Stress Level Monitoring

The watch supports stress monitoring and can provide breathing training to help balance your stress levels, so that you can instantly know when you need to rest and relax.

PAI Health Assessment System

PAI is a health evaluation system that uses algorithms to transform complex information such as heart rate data, activity duration, and other health data into numerical values, and presents this data to users.

50 Watch Faces

50 watch faces are available to suit your mood and outfit, or you can upload your own photos for a more personalized watch face. The Bip U also supports animated watch faces that make every glance at your watch a unique experience.

9-Day Battery Life

When fully-charged, you can relax and enjoy up to nine days² of activity and progress with typical usage, or up to five days² with heavy usage. Keep active with one less charger in your bag.
