The P-touch PT-D400AD is an ideal label maker for users who want a quick and easy way to create a wide variety of durable labels for the home and home office.

The P-touch PT-D400AD is a compact label maker with a large, QWERTY-style keyboard and a graphical display that help make it easy to create professional labels for the home and home office. The easy-type keyboard features large keys and an angled design for comfortable typing. It also features one-touch formatting keys that help save time when adding frames or changing other formatting options.

Create labels using the large library of fonts, frames and symbols

Create personalized labels up to 18 millimeter (.70 inch) wide using virtually any combination of the 14 fonts, 10 font styles, 99 frames and over 600 symbols. Plus, the PT-D400AD features a large internal memory that lets you save up to fifty of your most-commonly used labels and reprint them with a few button presses.

Flexible powering options

The PT-D400AD can be powered by the included AC power adapter or 6 AA batteries (sold separately) to give you the ability to make labels at your desk or on the go.

Works with a variety of tapes from the long-lasting laminated TZe Series

TZe tapes are protected by a thin, clear film to withstand water, grease, fading, abrasion, heat, and cold, making them ideal for indoor and outdoor applications. TZe labels feature a split back design for hassle-free application. Use one of our specialty tapes to create flexible cable and wire identification labels or create labels with acid-free adhesive that are safe for scrapbooking, and other photo-sensitive materials. Thereâ€™s even non-laminated fabric iron-on tape for labeling clothing and more.

Your only limit is your imagination

Use P-touch labels to help you stay organized at work, at home and everywhere in between.

Categorize folders with colorful labels according to content to help facilitate quick identification and retrieval of important documents. Create labels for shelving to help keep your supply closet organized. Create labels to easily identify personal items with contact information. Containers labeled with durable TZe tape can go from freezer to the microwave, and even the dishwasher â€“ while the labels remain legible and affixed.

At your side with free phone support for the life of your product

At Brother, our goal is to provide you with products that you can depend on to consistently deliver high performance, reliability and value. Thatâ€™s why we stand behind your purchase with a two-year limited warranty and 'Free' phone support for the life of your product. Whether you have a product question or a technical issue, Brother is always at your side.
