

Ekster: Aluminum Cardholder - 0.2-inch Slim Minimalist Wallet with Expandable Backplate - RFID Blocking Layer for Data Protection - Durable Space-Grade 6061-T6 Aluminum - 1-15 Card Storage Capacity Review-2021

[Read Customer Reviews](#)

INSTANT ACCESS: With our patented card ejection mechanism, contents are quickly fanned out at the click of a button. It stores 12+ cards; the cardholder stores 4-6, depending on the number of embossed cards, and the expandable metal backplate holds 6+ additional cards.

SKINNY GENES: This card holder's expandable backplate doesn't sacrifice a slim profile for extra storage. Ditch the bulk, carry more.

BUILT TO KEEP UP: Forged from space-grade 6061-T6 aluminum, this wallet won't give up before you do.

PROTECT YOUR IDENTITY: Keeps your cards close and your data even closer. The integrated RFID blocking layer fends off data skimmers.

100% SATISFACTION GUARANTEE: Not satisfied? Simply return it for a full money-back guarantee within 30 days. Review 2021, feedback 2021, promo code, discount code 2021, buy, picture, description, sale, price comparison, cheap, cheapest, value for money.
