Only Buy Authentic Miele FilterBags and filters

Counterfeit FilterBags and filters do not effectively capture particles that may be harmful to your health. Imitation turns from flattering to dangerous when impostor vacuum parts are put to use.

Miele's Sealed System design is the most effective and hygienic method of removing particulate

matter from your home... but only when genuine Miele filterbags and filters are used. Counterfeit filterbags and filter do not effectively capture particles - increasing your exposure to harmful substances and fine particles while reducing your vacuum's air flow: This can undermine cleaning performance by more than 12%!
