Frequently Asked Questions Q: Are they BPA free? A: Yes, all the parts are BPA free. Q: Does this kit come with one or two sets? A: This set comes with 2 flanges, 2 tubes, 4 valves, and 8 membranes. It includes everything you need except pump and bottles. Q: How do I choose the flange sizes? A: Measure the diameter of your nipples. Do not include the areola. Flange size should be 2-3mm larger than your nipple diameter. Refer to size selection guide in the product photos at the top of this page. Your cup size is irrelevant to flange size. Q: Can you attach other bottles to it? Or you have to use Medela bottles? A: You can use Medela bottles, Dr Brown's narrow bottles, Walmart Parents' choice bottles, and Nenesupply narrow bottles. Q: FDA approved? A: This kit is manufactured according to FDA regulations for breast pump kit. It is registered with FDA, and administered by FDA. Q: What kinds of plastics are used for these items? A:

Breastshields and valves are made of PP. Membranes are made of silicone. Tubes are made of PVC and ABS. All parts are BPA free. Q: I have older version of Medela Pump In Style. Can I buy this kit? A: Medela has released several versions of face plates. Please refer to 2nd product photo on the top of this page to verify your face plates before making purchases. Q: Does this kit work with Medela Symphony? A: No, this kit works with Medela Pump In Style. It does not work with other Medela models. Q: Does this kit work with Medela Harmony manual pump? A: No, this kit works with Medela Pump In Style. It does not work with other Medela models. Q: Does this kit work with Medela Swing pump? A: No, this kit works with Medela Pump In Style. It does not work with other Medela models. Q: Does this kit work with Medela Mini Electric pump? A: No, this kit works with Medela Pump In Style. It does not work with other Medela models.
