

Organyc, Feminine Intimate Wash for Sensitive Skin Free from Chlorine Parabens SLSSLES and Synthetic Perfumes Fluid Ounce, Transparent, Chamomile, Calendula, 8.5 Fl Oz (R00305) Review-2021

ALL-NATURAL INGREDIENTS - Organyc intimate feminine wash is made with 100% natural, organic ingredients. Organyc's certified organic formula helps to maintain healthy PH levels and gently cleanse your most intimate parts.

RESPECT SENSITIVE SKIN - Organyc feminine wash is gentle on the most sensitive skin and does not contain parabens, sodium laureth sulfate (SLS), or sodium lauryl ether sulfate (SLES), chlorine, synthetic perfumes and contains no artificial preservatives.

CALM & SOOTHING - Organyc intimate wash is infused with chamomile essential oils and calendula flowers, both known for their soothing abilities.

100% ORGANIC FORMULA - Organyc's formulation contains herbal extracts from organic farming and has been certified by ICEA according to the criteria of Eco-bio cosmetics. The addition of lactic acid helps stabilize PH levels to help prevent and alleviate irritation.

INGREDIENTS - Water, Coco-glucoside, Sodium Coco-sulfate, Glycerol Oleate, Chamomilla recutita (matricaria) flower/leaf extract, Calendula officinalis flower extract, Benzyl alcohol, Lactic acid, Dehydroacetic acid, Glycerin, Aloe Barbadesis Leaf Juice, Centaurea Cyanus Flower Extract, Anthemis Nobilis Oil, Limonene, Benzyl Alcohol, Sodium Benzoate, Potassium Sorbate, Citric Acid, Sodium Chloride

Organyc: No Compromises
Organyc brand feminine wash is made with a 100% organic formula to gently cleanse your most intimate parts. The all-natural ingredients are pure, to respect you and your body. Now you don't have to settle for feminine products that don't give you the complete protection you need and deserve.

We set an incredibly high purity standard in choosing the ingredients for our intimate wash. All-natural, active ingredients, as opposed to the synthetics that some other brands rely on. You'll never find Sodium Laureth Sulfate (SLS) or Sodium Lauryl Ether Sulfate (SLES) in our products. We also never use chlorine, parabens, synthetic perfumes, and no artificial preservatives to maintain our level of excellence. With Organyc, you can choose the brand that offers complete protection with no compromises on purity or quality.

pH Matters in an Organic Feminine Wash

A healthy pH range for adult women is anywhere from 3.8 to 4.5. While your good bacteria are working to keep your pH in balance all the time, they can use some help. Organyc 100% Organic Intimate Feminine Wash contains lactic acid to stabilize pH, and alleviate and prevent irritation. You deserve the best intimate wash for your body.

Key Features

Made with 100% natural, organic ingredients

Infused with chamomile essential oils and calendula flowers, known for their soothing abilities

Intimate wash designed to be gentle on your body and your most sensitive skin

No dyes or colors, chlorine, synthetic perfumes or artificial preservatives

Unmatched standard of purity for this feminine hygiene wash

Soothing and Proven Safe for Sensitive Skin

We include extracts of calendula (marigold flowers) and chamomile that are well known for their soothing properties, as well as aloe vera and cornflower, which are known for their cooling properties. Hypoallergenic, organic and nature-provided emollients are designed to moisturize, hydrate, and soften your skin. The chamomile essential oil is also responsible for the all-natural, pleasant scent Organyc Intimate Wash provides. Organyc is the one brand that offers complete protection for you and your sensitive skin.
